

Water Treatment Facility Advanced Process Improvement May 2021

The Water Treatment Facility is staffed 24/7/365. For inquires or construction-related emergencies, please call (320) 255-7225.

CONSTRUCTION PROGRESS

The operational lab demolition and rehabilitation is almost complete. Operational staff are currently having to take grab samples to complete daily process control analysis.

An old finished water holding tank demolition is almost complete. The area will hold the Ozone and Ultraviolet equipment, when the project is complete.

FAQs

A construction website was created. The website has additional project information. Please use this link.

<https://ci.stcloud.mn.us/WaterProject>

The Webcam link is also on the Construction Website. Please click on that link for a live look at the construction project.

How will you secure the construction site?

Thank you for staying outside of the construction zone, it is greatly appreciated for the safety of all people. Certain areas within the construction zone have additional precautionary fencing to secure open holes.
