

May 27, 2022

TO: Property Owners  
FROM: Zac Borgerding, Engineering Department  
RE: Wilson Avenue Improvements, Contract 2022-02

The City Council awarded the contract for the Wilson Avenue Improvements. Typically, at this time of year we would be sending to you the first of several monthly newsletters sharing information relating to the reconstruction of the streets and utilities in your neighborhood.

Unfortunately, due to material supply issues, this letter serves to inform you that construction will begin in June of 2023.

We apologize for the inconvenience of this delay. Some residents may have scheduled the replacement of the water and sanitary sewer services line from the home to the street in anticipation of the City project. If you are planning to replace either your water and/or sanitary sewer service lines, please contact Jason Conley, the Resident Project Representative, at 320-292-9993, to develop the best plan.

As additional information becomes available, we will share it with you.

If you have any further questions or concerns, please contact the Engineering Department at 320-255-7249.
