

Water Treatment Facility Advanced Process Improvement June 2022

The Water Treatment Facility is staffed 24/7/365. For inquires or construction-related emergencies, please call (320) 255-7225.

CONSTRUCTION PROGRESS

Sod was laid in preparation of the Independence Day celebration. An additional drainage swale was installed to prevent erosion on the South end of the building.

Stainless steel baffle walls have been installed in one of the two tanks required for ozone injection treatment.

FAQs

A construction website was created. The website has additional project information. Please use this link.

<https://ci.stcloud.mn.us/WaterProject>

The Webcam link is also on the Construction Website. Please click on that link for a live look at the construction project.
