

Water Treatment Facility Advanced Process Improvement February 2023

*The Water Treatment Facility is staffed 24/7/365. For inquires or construction-related emergencies, please call (320) 255-7225.*

## CONSTRUCTION PROGRESS

The Water Treatment Facility Advanced Process Improvement Project included Ultraviolet (UV) light for disinfection. This equipment will allow us to feed less chlorine and still maintain system wide disinfecting properties. With a lower chlorine feed we will not be creating additional disinfection by products. Below are images of the UV equipment.

## FAQs

A construction website was created. The website has additional project information. Please use this link.

<https://ci.stcloud.mn.us/WaterProject>

The Webcam link is also on the Construction Website. Please click on that link for a live look at the construction project.
